

# HEAVEN SENT AND BENT

A truly modern, no holds barred ode to motherhood

## Heaven Sent and Bent

showcases Rene's clever humor, exposes her real struggles, and reveals the unwavering faith she has relied on day in and day out raising a severely disabled child over the last 30 years.

As the author points out, motherhood is a multi-dimensional, multi-faceted, multi-tasking endeavor. She dispenses her down home, uptown honest revelations, observations and opinions that most mothers think behind closed doors, but rarely divulge.

Through Heaven Sent and Bent first time author Rene offers up plentiful servings of humility, truth-telling, fear and grit as she shares her brave and personal navigation through the grueling and heartfelt experiences of raising six children, including TJ-her youngest, wheelchair bound with Cerebral Palsy.

*"Rene Steelman takes us into the pain and laughter, the courage and soulfulness of motherhood, as one who has been there and done that, both valiantly and humanly. And there's more here: a lovely guide to living a spirit-centered life in the midst of busy days & trying circumstances. I couldn't put it down."*  
~ Victoria Moran, author of *Creating a Charmed Life and Shelter for the Spirit*

# RENE STEELMAN

AUTHOR ~ SPEAKER ~ MOTHER

After Rene' was honorably discharged from the US Navy, she devoted her life to her family. A full time mother to her six children and wife of forty-one years. While raising her children and especially caring for her youngest son with Cerebral Palsy, she completed her education as an award winning interior designer and instructor. She taught at The Heritage School of Interior Design as well as owning her own design business.

Rene is the President of the Steelman Family Foundation whose mission is to assist families in need of wheelchair accessible vans.

She has dedicated her work to those who have also struggled with life's surprises and leaves a message of hope and determination!
